ABOUT US

A tiny house on wheels can be added to a property without violating building or planning laws because they are considered caravans by most shires. Having said this, it will be best for you to check with your local councils when making a purchase decision.

You can place a tiny house on wheels on an unbuildable lot and still enjoy the benefits of your purchase.

Because it is on wheels, it can be moved anytime. With this flexibility, your tiny house may be facing the sea in one year or be immersed in the smells of fresh apples on an apple farm in another year!

This is a tiny house that moves to the perfect spot. Together with a team of amazing people, Build Tiny has led the way in the tiny house industry in Australia. We take great pride in every tiny house built for each and every Big Tiny owner.

INNOVATIVE, INDUSTRY-LEADING TINY HOUSE RV DESIGNS

Build Tiny has pioneered the Tiny House RV industry, leading the field in innovation, design and quality. We strive towards building sustainable tiny houses with small spaces made liveable and beautiful. Every Big Tiny we build uses environmentally friendly materials. Every Big Tiny we build is built for you in mind.

PANEL SYSTEM

We are probably the first company to build a tiny house in under two hours using our own panel system.

FINANCING

We have a Rent to Own program to help you finance the house.

DELIVERY

We can flat pack our tiny house RVs and ship easily to you anywhere in the world.

WARRANTY

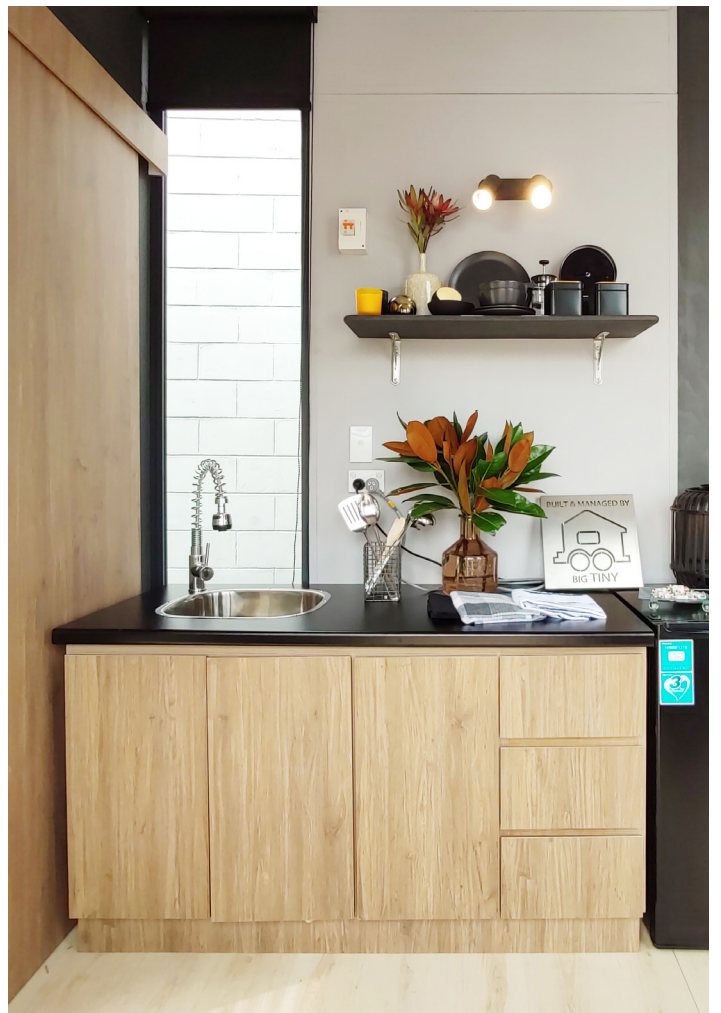

We offer one year warranty on the craftsmanship of the build. We are here for you.

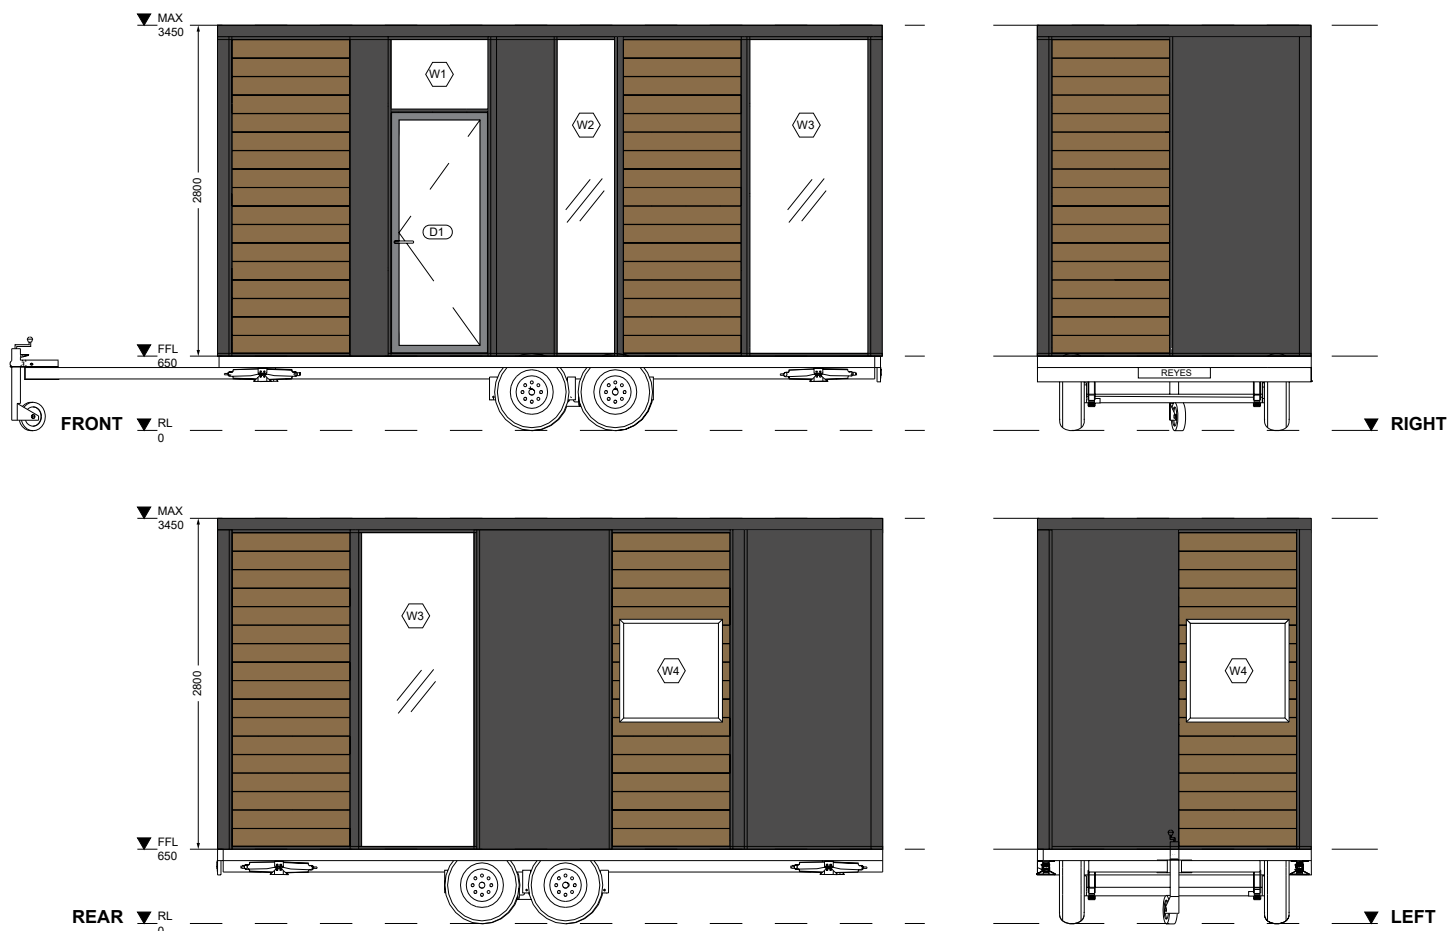

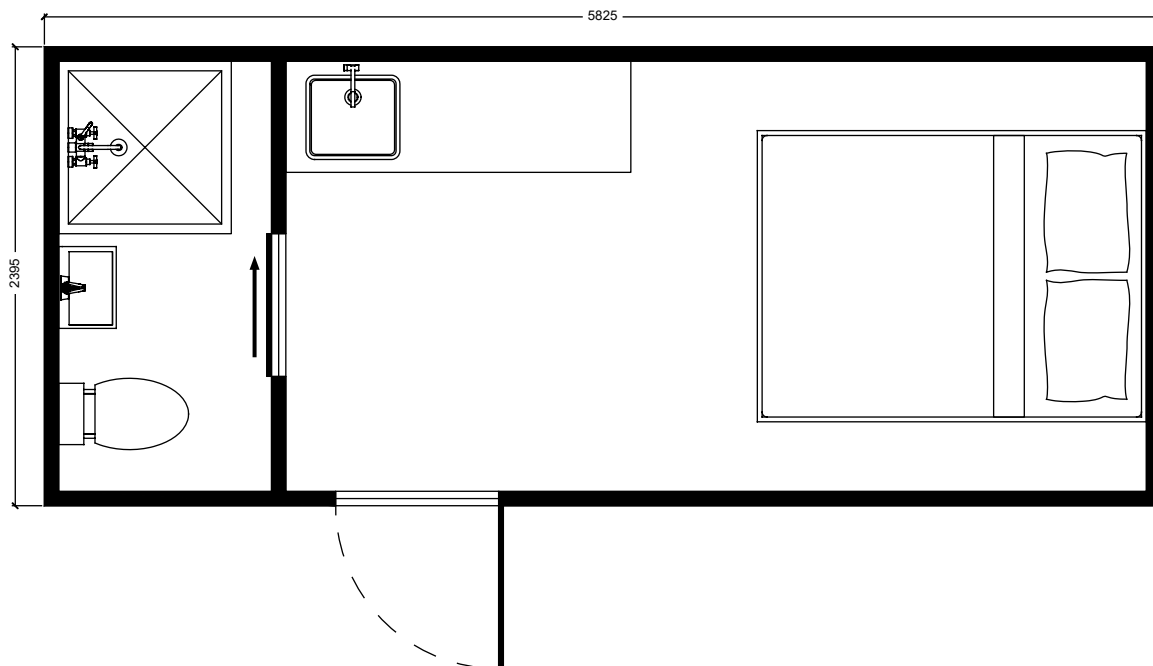

REYES

Reyes is built using a wonderful contrast of materials and styles. It has a clean and modern aesthetic that is contrasted with a beautiful natural outlook. Reyes' design boasts a giant panoramic window that brings the outdoors to you.
