

Live Large in a Tiny Home

Smart, Sustainable Living with Build Tiny Australia

Discover Tiny Homes with Build Tiny

Tiny houses are part of an international movement to simplify life by reducing the size and resource consumption of homes without sacrificing quality of life. At Build Tiny, we design and build our tiny houses with a proprietary panel system that allows them to be flat-packed and shipped internationally.

Why Choose Build Tiny Australia?

- **Efficient Design and Sustainable Living**
Our Reyes model is meticulously crafted to maximize every inch, offering a functional layout that enhances your daily life. Embrace eco-friendly living with a smaller environmental footprint, without sacrificing modern conveniences.
- **Innovative and Easy Assembly**
Our tiny houses can be easily assembled with just two to three people, with no need for any lifting machines. Even non-technical individuals can complete the assembly within a few hours.
- **Sustainability and Quality**
We pioneer the Tiny House RV industry, leading in innovation, design, and quality. Each tiny house is built with precision using high-quality, environmentally friendly materials and assembled locally in Australia, ensuring durability, reliability, and livability.
- **Transparent Pricing**
We offer transparent pricing with no hidden costs, making it easier for you to budget effectively. Our homes represent excellent value for money with competitive pricing relative to the quality and features offered.
